- Suicide is the second-leading cause of death in college-aged students in the U.S.
- The international theme for World Suicide Prevention Day is "Changing the Narrative on Suicide." At CARES, a goal is to raise awareness about the importance of reducing silence and stigma and encouraging open conversations of understanding and support to prevent death by suicide.
- Kristy Eaton, CARES director, will lead QPR, an evidence-based, two-hour suicide prevention training that will help Purdue Engineering community members learn to recognize the warning signs for suicide, assist those in need and review helpful Purdue resources in order to help save a life.
